

## ~ **Camp Fire Rules** ~

*The following rules apply to encourage responsible and safe behaviour on our camp site.*

*If you are unclear about any detail please ask.*

1. Only use made for purpose fire baskets. These should be at least 6 inch (15 cm) off the ground.
2. Only use appropriate fuels. Do not scavenge fence posts or use growing twigs and branches.
3. Keep fires a modest size. Do not allow fires to overhang the fire basket.
4. Dispose of coals/ashes when cold in the metal bin in the recycling area and not in the hedge!

### ***For the safety of all***

- Never use flammable liquids on your fire.
- Keep fire a safe distance from tents and vehicles.
- Supervise your children at all times.
- Never leave your fire unattended.

*We reserve the right to extinguish fires without question should we think it necessary.*
